

Facilitating with Insights Discovery E-Learning Modules

A library of e-Learning modules is available to all Accredited Practitioners.

Facilitating with Insights Discovery provides Accredited Practitioners with a quick refresher of key topics as they prepare to deliver their next Discovery programme.

Each module is less than 20 minutes in length and focuses on one specific topic. The modules serve as a refresher for any Discovery Accredited Practitioner, especially those who have not delivered a Discovery programme in a long time.

2. Ideal activities and debriefing points
3. Key learning points
4. Key resources for design

There are 12 modules currently available:
